

# 10 to a Million

Building the Voice of Internal Medicine

With **100,000** eligible members, ACP Services PAC has the power to be one of the strongest voices for internal medicine.

We are challenging each of our eligible 100,000 members to give a small contribution of **\$10** or more to help us build our political action committee and reach a **Million Dollars!!!**

## What can your \$10 do?

With just a **\$10 contribution** to ACP Services PAC, you can help us increase our influence with lawmakers and promote policies that benefit internal medicine. In addition, you will become a valued PAC member, have more direct access to your congressional delegation, learn about policies that will impact your practice, and be invited to attend key fundraisers on behalf of the PAC.

## What does ACP Services PAC do?

- ACP Services PAC is a legal and transparent way to collectively pool funds to support candidates who support us!
- Builds relationships with lawmakers.
- Supports candidates that support us.
- Increases our relevance in the healthcare conversation.

## WHAT YOUR \$10 CAN HELP US DO:

- **Chronic Care Management:** Improving payment, eliminating cost-sharing, and reducing regulatory barriers to chronic care management.
- **Health Information Technology:** Reducing the burdens associated with EHR meaningful use regulations and clinical documentation requirements and enhancing usability and operability.
- **Telemedicine:** Eliminating payment and regulatory barriers to telemedicine in a way that supports the patient-physician relationship.
- **Behavioral Health and Opioid Abuse:** Reducing barriers to integrating behavioral health into primary care and addressing the related rising death toll from opioid abuse.
- **Prescription Drug Costs:** Addressing the rising cost of prescription drugs through greater pricing transparency and funding to speed up approval of life-saving drugs.
- **Graduate Medical Education:** Reforming GME to prioritize funding toward physician specialties facing shortages, including primary care internal medicine, and ensuring sustainable and broadly supported funding by all payers going forward.
- And these efforts are in addition to our ongoing work to help reinforce with lawmakers the need for successful implementation of the **Medicare Access and CHIP Reauthorization Act (MACRA)**, which will help us to improve our ability to deliver care. This landmark law, enacted in April 2015, was the culmination of many long years of advocacy to eliminate Medicare's flawed physician payment formula and replace it with a value-based payment and delivery system.

## Why is your help needed?

Compared to our peers, we are the smallest PAC with **less than 1%** of eligible members participating. We are determined to change that with this campaign.

By joining the PAC, and contributing just **\$10**, you can be part of this effort to grow our PAC exponentially.

## Why does your state matter?

In the spirit of friendly competition, the 10 to a Million Campaign was designed, in part, as a state competition to see which states come out on top – not only in terms of dollars raised but especially in how many new members join the PAC. The competition is fierce so please help your state, and our PAC, grow in the ranks by making this simple contribution today!

**HELP US STRENGTHEN OUR VOICE FOR OUR PATIENTS  
AND PROFESSION FROM YOUR STATE TO DC.**

## CONTRIBUTE NOW

If you prefer, you can mail a personal check, payable to “ACP Services PAC,” to:

ACP Services PAC  
Suite 700  
25 Massachusetts Ave., NW  
Washington, DC 20001-7401
