ACP Services PAC Newsletter

Your advocacy tool to protect the future of Internal Medicine

As Chair of the ACP Services PAC, I want to thank you for your support. Last year, we had a banner year, **raising over \$185,000**, which strengthened the voice of internal medicine (IM) and allowed us to support candidates who understand our priorities.

I'm reaching out now because 2026 is a critical year. Congressional elections are around the corner. The PAC needs your contribution to support physicians running for office and defend policies that directly affect our patients and our profession. PAC contributions also give ACP Services the opportunity to engage directly with candidates and members of Congress and highlight issues for them that directly impact internal medicine physicians.

Your PAC is focused on the issues that matter most to internal medicine physicians, including:

- Improving physician reimbursement and payment stability;
- Reducing prior authorization burdens;
- Strengthening the IM workforce;
- Protecting patient access to high-quality care; and
- Supporting evidence-based, patient-centered health policy.

Renewing your membership ensures we can:

- Support physician candidates in key races;
- Advocate for policies that improve access and care quality; and
- Strengthen IM's voice in Washington.

I'm asking you to renew your membership for the year so we can continue this important work for you.

**THANK YOU for your continued support of
ACP Services PAC!**
